NotePage, Inc. White Paper

Company Name: St Croix County

Web Address:

Industry: Public Safety

Business / Organization Description:

St Croix is a county government supporting over 63,000 residents in Wisconsin. St Croix County dispatches 911 calls for Fire, EMS and law enforcement.

How is PageGate Used:

The 911 Center uses PageGate to transmit SMTP messages to IAmResponding for their fire, EMS, and police department notifications as a secondary means to their Minitor paging devices

Since St Croix County is using IAmResponding as a secondary means to communicate emergencies to their emergency responders they have found that messages going out via SMTP through PageGate have transmitted quicker than doing over the air paging that requires someone to set tones off. In other words PageGate which only relies on computers to put files in the right spot at the right time.
